Scientists and their presentations | 14:30-15:45

14:30–14:45

Tarek Elkhooly

Professor, head of ranking and research at Delta University for Science and Technology, Mansoura, Egypt

Rethinking Engineering Physics: A New Pedagogy for the Next Generation of Engineers

14:45–15:00

Rafal Burdzik

DSc, Professor, Silesian University of Technology, Poland

An innovative research to support transport safety - new applications of vibroacoustics

15:00–15:15

Askar Zhagparovich Zhussupbekov

Director, Geotechnical Institute, L. N. Gumilyov Eurasian National University, Kazakhstan

Experience with the vibration monitoring method for driving piles in an existing foundation

15:15–15:30

Durdymurad Gadamov

Professor, Director, ISTP, Academy of Sciences of Turkmenistan

Prospects for the application of organomineral composite materials in railway transport

15:30–15:45

Akymbek Abdykalykov Abdykalykovich

DSc, Professor, Advisor to the Rector Kyrgyz State Technical University named after I. Razzakov, Kyrgyzstan

Vibration-Resistant Mixed Binders Using Man-Made Burnt Rocks for Transport Infrastructure

27 November 2025, Thursday

"Friendship" hall
